PROFESSIONAL SUMMARY

Detail-oriented B.Tech graduate (Computer Science and Business Systems, May 2026) with a strong foundation in data analysis, structured reporting, process documentation, and cross-functional collaboration. Experienced in managing data workflows, maintaining accurate records, preparing structured reports, and communicating analytical insights to diverse stakeholders. Proficient in Excel, Python, SQL, and Power BI — with demonstrated ability to work with complex, multi-source data while maintaining high accuracy and quality standards. Enthusiastic about process improvement, compliance-aligned reporting, and growing within a global organization like Siemens.

KEY SKILLS & TOOLS

Reporting & Documentation: Structured report preparation, KPI documentation, metric definitions, process documentation, template design

Data Management: Data accuracy validation, record management, multi-source data consolidation, ETL workflows, data quality checks

Excel & Office Tools: Excel (advanced — Power Query, pivot tables, formulas), Word, PowerPoint, Google Sheets

Database & Analysis: SQL (data extraction, filtering, aggregation), Python (Pandas, NumPy), Power BI dashboards

Collaboration & Communication: Cross-functional team coordination, stakeholder communication, written & verbal English proficiency

Process & Compliance Mindset: Attention to detail, confidentiality management, structured workflow execution, process improvement

Automation: n8n Workflow Automation, reporting pipeline design

INTERNSHIP EXPERIENCE

Data Analyst Intern | Cube AI Solutions

March 2025 – May 2025

Data Coordination & Reporting

- Coordinated with internal stakeholders to gather, validate, and consolidate data from multiple sources — ensuring accuracy and consistency across all reporting outputs before submission deadlines.
- Managed and maintained structured databases of 1,000+ consumer records, applying data quality checks and resolving inconsistencies to keep reporting datasets accurate and up to date.
- Prepared monthly performance reports and KPI dashboards, delivering structured outputs to business teams in a timely manner aligned with internal reporting cycles.
- Documented data logic, metric definitions, and process workflows in clear, stakeholder-friendly language — enabling consistent interpretation across technical and non-technical teams.
- Worked collaboratively with cross-functional team members to review reporting processes and implement continuous improvements to data workflows and output quality.

Compliance & Accuracy-Focused Reporting

- Developed a structured analytical dashboard tracking year-over-year global data trends across a 10-year dataset — applying rigorous data validation to ensure reporting accuracy before stakeholder delivery.
- Implemented drill-through audit filters enabling teams to trace data points back to source records, supporting compliance reviews and comparative analysis across reporting periods.

PROJECTS

Financial Performance Reporting Dashboard

- Built a structured financial KPI dashboard tracking revenue, expenses, and profit margins across geographies — applying Power Query transformations to maintain data integrity and streamline monthly reporting workflows.

Operations Performance Tracking — Call Centre Analytics

- Designed an operations reporting dashboard monitoring productivity metrics, resolution rates, handling times, and satisfaction scores — with validation checks to identify data anomalies and support management reporting.

Sales & Customer Data Reporting

- Created a structured reporting dashboard consolidating customer demographics, product revenue, and regional performance data — enabling business teams to track KPIs and make data-informed decisions.

EDUCATION

B.Tech – Computer Science and Business Systems

2022 – May 2026

K.S. Rangasamy College of Technology, Tiruchengode | CGPA: 6.65

Higher Secondary Certificate (HSC)

May 2022

JKK Nattaraja Matriculation Higher Secondary School | 79%

CORE COMPETENCIES

Attention to Detail | Confidentiality Management | Cross-functional Collaboration | Process Improvement | Adaptability
| Positive & Proactive Attitude | Flexible to Organizational Needs

CERTIFICATIONS

- Microsoft – Data Analysis and Business Intelligence (BI) | May 2026
- Microsoft – Introduction to End-to-End Analytics Using Microsoft Fabric | May 2026
- PwC Switzerland – Power BI Job Simulation | March 2025
- Tata – Data Visualization: Empowering Business with Effective Insights | March 2025
- HackerRank – SQL (Basic) Certification | May 2026 | Credential ID: 63877633d97F
