PROFESSIONAL SUMMARY

Entry-level Data Analyst and Power BI Developer with internship experience building interactive dashboards for e-commerce and cybersecurity domains. Proficient in Python, SQL, Power BI, DAX, Power Query, Pandas, NumPy, and n8n workflow automation. Delivered 5+ data-driven dashboards supporting business decision-making at Cube AI Solutions. Graduating B.Tech CSBS, 2nd May 2026.

TECHNICAL SKILLS

Languages: Python, SQL

BI & Data Tools: Power BI, Power Query, DAX, Excel, Pandas, NumPy, Matplotlib

Automation Tools: N8N Workflow Automation

Platforms: Jupyter Notebook, Visual Studio Code, PyCharm

Concepts: Data Cleaning, Data Modeling, ETL, KPI Tracking, Customer Segmentation, Trend Analysis, Business Intelligence, Data Visualization

SOFT SKILLS

Analytical Thinking | Problem-Solving | Attention to Detail | Team Collaboration | Adaptability

EDUCATION

K.S. Rangasamy College of Technology, Tiruchengode

B.Tech – Computer Science and Business Systems | CGPA: 6.65

11th November 2022 – 2nd May 2026

JKK Nattaraja Matriculation Higher Secondary School, Kumarapalayam

Higher Secondary Certificate (HSC) | 79%

May 2021 – May 2022

INTERNSHIP EXPERIENCE

Data Analyst Intern (Power BI) | Cube AI Solutions

March 2025 – May 2025

Project: E-commerce Consumer Behavior Data Analysis

- Engineered a 5-page Power BI dashboard analyzing 1000+ consumer purchase records across multiple product categories.
- Applied customer segmentation and purchase frequency analysis to identify seasonal buying trends and customer behavior patterns. Utilized Power Query for ETL workflows and for KPI measures, interactive reporting, and trend analysis.

Project: Global Cybersecurity Threats Dashboard (2015–2024)

- Developed an interactive Power BI dashboard visualizing threat types, affected countries, and year-over-year cyber trends across a 10-year dataset.
 - Enabled risk assessment and mitigation planning through drill-through filters and dynamic visualizations.
 - Designed KPI tracking dashboards improving visibility into cyber threat analytics and comparative reporting.
-

PROJECTS

Sales and Customer Analysis:

- Designed a dashboard providing insights into customer demographics, product-wise revenue, and regional sales growth trends.
- Implemented KPI cards and trend analysis visuals to improve sales performance reporting.

Financial Sample Analysis:

- Built a dynamic financial KPI dashboard tracking revenue, expenses, profit margins, and geography-wise business performance.
- Applied data modeling and Power Query transformations to streamline financial reporting workflows.

Call Center Analysis:

- Created a performance dashboard monitoring agent productivity, call resolution rates, average handling time, and customer satisfaction scores.
- Developed interactive visuals identifying operational bottlenecks and improving service reporting efficiency.
