CAREER OBJECTIVES

I am a Computer Science and Business Systems undergraduate with hands-on experience in data analysis and Power BI dashboard development gained through academic projects and internships. I have a strong interest in working with data, identifying patterns, and transforming raw information into meaningful insights that support effective business decision-making. I possess solid analytical and problem-solving skills, along with a keen focus on data visualization and reporting. I am currently seeking an entry-level opportunity as a Data Analyst, Power BI Developer or Network monitoring where I can apply my technical skills, contribute to real-world projects, and continue to develop professionally.

EDUCATION

K.S.RANGASAMY COLLEGE OF TECHNOLOGY

Bachelor of Technology (computer Science And Business System) ; CGPA:6.65

JKK NATTARAJA MATRICULATION HIGHER SECONDARY SCHOOL

Higher Secondary Certificate (HSC) – 12th Standard ; PERCENTAGE:79

Tiruchengode Namakkal

November 2022 - May 2026

Kumarapalayam, Namakkal

MAY 2021 - MAY 2022

SKILLS SUMMARY

Technical Skills:

- **Languages:** Python, SQL
- **Frameworks:** Pandas, NumPy, Matplotlib
- **Tools:** Power BI, Excel, PowerPoint
- **Platforms:** PyCharm, Jupyter Notebook, Visual Studio Code
- **Networking:** Network Security fundamentals

Soft Skills: Analytical Thinking, Problem-Solving, Attention to Detail, Adaptability, Team Collaboration

WORK EXPERIENCE

Data Analyst (Power BI) | Cube AI Solutions

MARCH 2025- APRIL 2025

Project: *E-commerce Consumer Behavior Data Analysis* - [Project Link](#)

- **Problem:** Retailers struggle to understand consumer preferences, buying patterns, and product performance in a highly competitive ecommerce space.
- **Solution:** Built a comprehensive dashboard to analyze purchase frequency, top-selling products, customer segmentation, and seasonal trends for data-driven marketing.

Project: *Global Cybersecurity Threats (2015–2024)* - [Project Link](#)

- **Problem:** Organizations face difficulty tracking evolving global cyber threats over time, hindering proactive defense strategies.
- **Solution:** Developed an interactive Power BI dashboard visualizing threat types, affected countries, and year-wise trends to support risk assessment and mitigation planning.

PROJECTS

View More Projects On (GitHub: [Sudesh52](#))

Project: *Sales and Customer Analysis* - [Project Link](#)

- **Problem:** Businesses struggle to track sales trends and understand customer behavior across various products and regions.
- **Solution:** Built a robust dashboard providing insights into customer demographics, sales performance, product-wise revenue, and growth trends.

Project: *Financial Sample Analysis* - [Project Link](#)

- **Problem:** Decision-makers lack an intuitive view of financial KPIs across global business units.
- **Solution:** Designed a dynamic dashboard to explore revenue, expenses, profit margins, and geography-wise financial health for better strategy alignment.

Project: *Call Center Analysis* - [Project Link](#)

- **Problem:** Poor visibility into call center performance leads to inefficiencies in customer service operations.
- **Solution:** Created a dashboard to monitor agent productivity, call resolution rates, average handling times, and customer satisfaction scores.

CERTIFICATES

Certifications & Job Simulations

Tata Data Visualization: Empowering Business with Effective Insights - [Link](#)

March 2025

Completed a simulation involving creating data visualizations for Tata Consultancy Services. And Prepared key business questions for a meeting with client senior leadership.

PwC Switzerland Power BI Job Simulation - [Link](#)

March 2025

Strengthened Power BI skills to better understand client data visualization needs. And Designed KPI dashboards in Power BI to address client requests with well-structured solutions.
